# THE SWAMINARAYAN SCHOOL

THE SWAMINARAYAN SCHOOL, NAGPUR

The Swaminarayan School is quietly satisfying the ever-growing demand for high quality education in Nagpur, the land of oranges. Nourishing children with values and wisdom, academics and achievements, the school had a humble beginning.

## THE PRESENT SCHOOL

The Swaminarayan School was inaugurated by HDH Pramukh Swami Maharaj on 22 June 1997. It began with 215 students in the nursery and kindergarten classes of the Pre-Primary School. Then, with the commencement of the Primary School, the student strength has grown to 620 in 2002.

To provide a character-building, value-based, English-medium education upto the tenth standard, we have designed special curriculums, employed qualified and experienced teachers, whose teaching abilities are continually upgraded through interactive training programmes.

Thus, in a relatively short time, our school has attained such reputation and popularity that, at present, a double-shift system is in operation to accommodate the students. With this increasing demand for admission, a blueprint for a new state-of-the-art school has been made.
