Educators: Make plans now to visit the BAPS Shri Swaminarayan Mandir.

Looking for an interactive lesson plan on Indian culture? How about a demonstration of Hindu rites and rituals? Now, your students can experience the best of India and Hinduism right here in Lilburn - home of the magnificent BAPS Shri Swaminarayan Mandir. The Mandir echoes centuries of culture, religion, art and architecture from ancient India. As the students explore the Mandir complex, they will discover intricately hand-carved stones that depict stories taken directly from the pages of Hindu scriptures. They will pause at the cascading water that flows from a row of elephant trunks, and marvel as they gaze up at a 23 foot dome that completes this 34,000-piece stone structure. Lead your students through an unforgettable journey of rich heritage, vibrant rituals, and forgotten tales. School and tour groups are given an extensive tour by knowledgeable guides, allowing for a personal learning experience for teachers and students alike.
